Office Action Summary	Application No. 10/717,620	Applicant(s) YOSHIZAWA, TAKENORI	
	Examiner David A. Redding	Art Unit 1744	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

Applicant's election with traverse of claims 1-6,8-12 in the reply filed on 4/24/07 is acknowledged. The traversal is on the ground(s) that the application does not include patentably distinct or independent species. This is found persuasive and the restriction withdrawn and claim 7 rejoined with claims 1-6,8-12.

The requirement is still deemed proper and is therefore made FINAL.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 3,10-12, are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The claims cited above specify "...the first table is slid with the substrate placed in the first cleaning room being placed on the first table..."; "... a second table is provided in the second cleaning room, and the second table is slid with the substrate placed in the second cleaning room...".

It is unclear as to what structure defined in the claims provide the function of sliding the first and second table.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1,2,4,5,8,9, are rejected under 35 U.S.C. 102(b) as being anticipated by JP 06163505A2 to Tetsuya.

Figure 1 shows a substrate processing facility which comprises a plurality of cleaning rooms 1 which are stacked vertically one upon the other. Each of the rooms comprise HEPA filters 3. The cleaning room at the bottom and top of the facility has a door 1a and when in the open position allows clean air to enter the room. The doors are considered to read on the limitations of claim 5.

Allowable Subject Matter

Claims 6 and 7 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claims 3,10-12, are would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

As allowable subject matter has been indicated, applicant's reply must either comply with all formal requirements or specifically traverse each requirement not complied with. See 37 CFR 1.111(b) and MPEP § 707.07(a).

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. USP 7,047,984 is considered to be generally related to the claimed invention.
